

Winter Series

Sacramento • El Segundo • Monterey • Poway • Chula Vista

January 11-29th

Green Plumbers, the innovative water and energy conservation program, has announced a long-term strategy to provide consumers with the knowledge, incentive, and tools they need to monitor and reduce their daily water usage and to ultimately become champions of conservation for both the United States and the world.

The **Green Plumbers** Winter Series represents a tremendous opportunity for our industry, giving plumbers the ability to effect change by reaching out to and thoroughly involving the end-user. It also will provide plumbers with the tools to revamp their business model, change their image, and attract and sustain numerous amounts of new customers.

Why plumbers & contractors are signing up:

- Expand list of services
- Save your customers money
- Stand out from the competition
